

Problem-Solution Fit Canvas

Date	03 October 2026
Team ID	SWTID-2026-9455
Project Name	ComicCraft - AI Comic Story Creator using Gemini Models
Maximum Marks	5 Marks

The canvas checks that ComicCraft addresses the root causes, behaviours and limits of its target users.

1. CUSTOMER SEGMENT(S) [CS] - Hobbyist writers and students - Parents and teachers - Content creators and casual users without drawing skills	6. CUSTOMER LIMITATIONS [CL] - No art skills or design software - Limited budget for illustrators - Ordinary laptop or phone, limited time	5. AVAILABLE SOLUTIONS [AS] - Pros: manual drawing gives full control; template comic makers are easy - Cons: drawing is slow; templates are not personalised; separate tools for text, art and layout
2. PROBLEMS / PAINS + FREQUENCY [PR] - Cannot visualise story ideas (every time) - Tools are fragmented (often) - Hard to change tone/style (each attempt)	9. PROBLEM ROOT / CAUSE [RC] - Illustration needs skill or money - Story, art and layout are not connected - Style choices are not carried across text and images	7. BEHAVIOUR + INTENSITY [BE] - Searches comic makers, drawing tutorials (high) - Asks friends or AI chatbots for stories (medium) - Abandons ideas when art is too hard (high)
3. TRIGGERS TO ACT [TR] - A story idea or class project - Seeing AI art examples - Wanting a gift or shareable story	10. YOUR SOLUTION [SL] - ComicCraft: enter idea, character, setting, tone and style - Gemini Flash outlines 5 panels; Gemini Pro writes narration - Stable Diffusion draws each panel - Preview online and download as PDF	8. CHANNELS OF BEHAVIOUR [CH] ONLINE: web search, AI chatbots, social media, ComicCraft web app OFFLINE: sketching on paper, asking artist friends, printing the PDF
4. EMOTIONS: BEFORE / AFTER [EM] Before: frustrated, limited, unsure After: delighted, proud, confident to share
